OFFICE MEMORANDUM

DATE: October 2, 1979

TO : File

FROM : Margaret Anne Rogers *MAR*

SUBJECT : ACTIVITIES FOR SEPTEMBER 1979

SYMBOL : LS6-79-43

MAIL STOP 495

Thirteen per cent of my time was spent talking to various people on various subjects, 9% was spent writing or reviewing reports, 2% was spent at Area G, and 65% was spent on the geologic map. I took vacation September 14-21.

As noted in the August report, I still have not received monitoring information from Al Zerwekh, CMB-1 attached to H-7.

The first half of the month was spent doing field work for the geologic map.

I have been drawing geologic contact lines on aerial photographs for Maps 18, 19, and 12. Map 12 is complete.

To avoid confusion I am going to rename the NEW stratigraphic units (see August report):

NEWER	NEW	OLD
Unit A	Unit 1	Unit 1a
Unit B	Unit 2	Units 1b and 2a
Unit C	Unit 3	Unit 2b
Unit D	Unit 4	Unit 3
Unit E	Unit 5	Unit 4
Unit F	Unit 6	Unit 5

Miguel Salazar, H-7, has requested me to map the new pit, Pit 25, at Area G. A preliminary inspection with Barry Burton was made and photography by ISD-7 arranged.
