1980  
Report

Nine percent of my time was spent talking to various people on various subjects; 73% was spent on the mapping project; and 2% was spent on stratigraphic interpretation of density logs. June 4th I attended the LASL Waste Management Committee Meeting on Guidelines for Construction and Use of Solid Waste Disposal Facilities. June 12th Dick Heintz of Williams and Heintz Map Corporation was here; and June 19th Delbert Housman of Aero Service was here. June 24th I gave a talk to CSU students on environmental studies at Area G.

I worked on Maps 13, 14, 21, and 22. Field checking was done on Maps 8, 9, 13, 14, 21, and 22.

The visits of Dick Heintz and Del Housman were to discuss the drafting and printing of the geologic map. Dick Heintz promised an estimate of the printing costs; and Del Housman promised an estimate of the drafting costs. It is unlikely the map can be drafted and printed before the end of the fiscal year.
