No. R26-01-12; U.S. DOE, Los Alamos National
Laboratory, NM0890010515; Project Plan
Revision

Dear Mr. Clark;

As we discussed on July 16, we will perform a second round of QC for the Los Alamos report, due to the size and complexity of the facility. In addition to the time required to performed the QC, production of the report was also delayed while awaiting the final group of photographs from the facility. We now expect to have the final report to you by August 19, 1987.

Attached is a revised schedule. If you have any questions, please call me or John Donley.

Sincerely,

Lee Deets
Technical Director
