Report

Mr. Richard Mitzelfelt, Director
New Mexico Environmental Improvement Division
1190 St. Francis Drive
Harold Runnels Building
Santa Fe, NM 87503

Dear Mr. Mitzelfelt:

RE: 1989 HAZARDOUS WASTE REPORT

In order to complete the 1989 Hazardous Waste Report (1989 HWR) received by your office on February 8, 1989, we are requesting an extension of the March 1, 1990, deadline to April 1, 1990. This request is in accordance with the reporting requirements of the 1989 HWR. The 1989 HWR requires the Los Alamos National Laboratory to report all hazardous waste generated in 1988 and 1989. This includes more than 1.5 million pounds of D, F, P, and U wastes in various forms and containers. In order to accurately report each waste and how they were managed both on-site and off-site, the staff at LANL has informed me that they will require, at a minimum, six weeks to complete the 1989 HWR.

If you need additional information supporting this extension, please contact Paul Schumann of my staff at 667-5288.

Sincerely,

Jack B. Tillman
Area Manager
