Mr. Ed Horst
RCRA Program Manager
Hazardous Radioactivity Materials Bureau
New Mexico Environment Department
Harold Runnels Building
1190 St. Francis Drive
Santa Fe, New Mexico 87503

Dear Mr. Horst:

In an effort to provide your office with an accurate 1991 Hazardous Waste Biennial Report, the Department of Energy Los Alamos Area Office and the Los Alamos National Laboratory (LANL) are requesting an extension of the submittal date to April 1, 1992. The LANL Biennial Report will consist of several hundred waste stream reports compiled from several thousand records between 1990 and 1991. Before releasing these data to you, LANL personnel would like to perform an extensive quality assurance to ensure that what is reported is complete and free of errors.

If you have any questions regarding this matter, please call Steve Slaten of my staff at 665-5050.

Sincerely,

Karl J. Twombly, Chief
Environment, Safety and Health Branch
