Dear Mr. Horst:

In an effort to provide your office with an accurate 1993 Hazardous Waste Report, the Department of Energy, Los Alamos Area Office, and the Los Alamos National Laboratory (LANL) are requesting an extension of the submittal date for the report to April 1, 1994. This Report will consist of several hundred wastestreams compiled from several thousand records between 1992 and 1993. Before releasing this data to you, LANL personnel would like to perform an extensive quality assurance review to ensure that what is reported is complete and free of errors.
