SUBJECT: CORRECTION TO LIST OF THE RESOURCE CONSERVATION AND RECOVERY ACT FACILITY INVESTIGATION (RFI) REPORTS

Dear Mr. Garcia:

The Los Alamos National Laboratory's Environmental Restoration Project would like to make a correction to the list of RFI reports provided last February. On the list, we inadvertently included RFI reports for two Technical Area 21 material disposal areas (MDAs), MDA A and MDA U, which should not have been classified as RFI reports at this time. We have only completed the surface investigation for these sites. To complete the Phase I investigation of these sites, we still need to perform the subsurface component, which is currently scheduled to begin in Fiscal Year (FY) 1998. In accordance with the Environmental Protection Agency guidance, the RFI reports for these MDAs will be submitted following the completion of the full Phase I investigation, including the subsurface component. The anticipated time frame for these reports is late summer of FY98.

Since there is such a long delay between the surface and subsurface investigations for these MDAs, we have planned to document the surface investigation field operations and a preliminary data assessment in internal reports which will be incorporated into the RFI reports following the subsurface investigation. These internal reports were inadvertently placed on the list of RFI report deliverables. We apologize for the confusion.

Please ask your office to contact Garry Allen at (505) 667-3394 or Bonnie Koch at (505) 665-7202, if you have any questions.

Sincerely,

Jorg Jansen, Program Manager
LANL/ER Project

Sincerely,

Theodore J. Taylor, Program Manager
