**RE: EXTENSION REQUEST TO SUBMIT THE
PHASE II INVESTIGATION REPORT FOR
UPPER LOS ALAMOS CANYON AGGREGATE AREA
LOS ALAMOS NATIONAL LABORATORY
EPA ID#NM0890018
HWB-LANL-12-080**

Dear Messrs. Maggioro and Mousseau:

The New Mexico Environment Department (NMED) is in receipt of the United States Department of Energy (DOE) and Los Alamos National Security, L.L.C.'s (collectively, the Permittees) document entitled *Request for Extension to Submit Phase II Investigation Report for Upper Los Alamos Canyon Aggregate Area* (Report) dated November 8, 2012 and referenced by EP2012-0231.

The Permittees request the extension to submit the Report due to their re-allocation of resources to the shipment of transuranic (TRU) waste stored at Technical Area (TA) 54 to the Waste Isolation Pilot Plant, located in Eddy County, New Mexico and due to uncertainties in funding levels for the current federal fiscal year (FFY13). The submittal date for the Report has been changed from August 30, 2013 to **February 28, 2014**, as requested.

35608

Messrs. Maggiore and Mousseau
November 20, 2012
Page 2

NMED notes that this is the second extension requested by the Permittees to submit this Report from the original due date of August 3, 2012. NMED is concerned over delays that affect the progress of corrective action; however, NMED understands the current uncertainties associated with the allocation of DOE resources to LANS to fund corrective action at the laboratory. The Permittees must notify NMED, within seven days of receipt of such information, should funds become available in the future that allow for the Report to be submitted prior to February 28, 2014. If funding becomes available, NMED may re-evaluate the deadline for completion of this project.

Please contact Dave Cobrain at (505) 476-6055 if you have questions.

Sincerely,

A handwritten signature in black ink, appearing to read "John E. Kieling", with the word "for" written below it.
