Vicki
Could you please resubmit your request with the missing information, so our library copy has the final version with information on SWMUs/AOCs associated with these Tracts. Please include a figure depicting locations of these AOCs. The submittal states that there were no AOCs located on these tracts however, your email states there are AOCs located on C-2 and C-4.
We will schedule a phone conference after I have had an opportunity to review this information.
Thx.

Hi Neelam

I am sorry that list got left off of the attachment.

Tract C-2 contains C-00-005, Pueblo Canyon, and C-00-006, Los Alamos Canyon.
Tract C-3 contains no PRSs.
Tract C-4 contains C-00-007, Sandia Canyon, at the very southern edge of the tract boundary.

If you want to try and have a teleconference on Thursday, we will need to double check what time a representative from the County could make. I'm pretty open after 1030 that day

Talk to you soon

Vicki

Vicki

I received your notification for land transfer of tracts C-2, C-3, and C-4. The notification did not include a table listing AOC in close proximity as stated in the text. I wanted to check with you whether there are any AOC in close proximity of these tracts. The figure doesn't indicate any SWMUs/AOCs close by.

Do let me know when you want to have a meeting on this. I'm available 8/27, if that works for you.

Thx.
