Dear Mr. C de Baca:

Per your telephone conversation with Jim Aldrich on March 18, 1994, requesting a letter addressing the presence/absence of Solid Waste Management Units (SWMU) at the Gold Street Apartments between Canyon Road and Trinity Drive, the following is provided.

An archival search conducted by the Los Alamos National Laboratory for the Department of Energy (DOE) from October 1990 to January 1992 shows that there are no SWMUs located on the Gold Street Apartments property. The enclosed map indicates the locations of the closest SWMUs, which include a septic tank at the Catholic Church (0-030[h]) on the north side of Canyon Road and a decommissioned steam plant (SWMU 0-012) and container storage area (0-003) on the south side of Trinity Drive and north of the DOE Los Alamos Area Office. This archival search was exceedingly thorough. Our investigations to date indicate that no SWMUs are present in the Gold Street Apartment area.

I hope this information meets your needs. If you have any questions, please call me at 665-7203, or Bonnie Koch, Scientech, at 667-5793.

Sincerely,

Theodore J. Taylor
Program Manager
