Dear Mr. Honker:

Subject: **SWMU 0-039, OU 1071, Request for Extension for NOD Response to Sampling Plan**

The Department of Energy, Los Alamos Area Office (DOE/LAAO) is writing to request an extension for submitting a NOD Response for the Sampling Plan for SWMU 0-039, which is an addendum to the RFI Work Plan for OU 1071. In your letter to LAAO, received November 14, 1994, which transmitted the NOD and comments to be addressed, you specified that a response be submitted within twenty (20) days from receipt of notification. A response is therefore due to your office by December 2, 1994. However, comments from the NMED Underground Storage Tank (UST) Bureau were not received until November 30, 1994. We therefore request an extension to December 16, 1994, for preparation of a response that will include both EPA comments and NMED UST Bureau comments.

NMED UST Bureau has been notified that preparation of the NOD Response will be delayed past December 15, 1994, which is the date they originally requested for initiation of site activities. The Bureau has verbally indicated their approval for the delay.

Please let me know at your earliest convenience of your decision concerning this request. Should you have any questions, please contact Bonnie Koch, Office of Environment and Projects, at (505) 665-7202; or me at (505) 665-7203.

Sincerely,

Theodore J. Taylor
