RE: Drum storage area at intermediate monitoring well LADP-3, Los Alamos National Laboratory, New Mexico

Dear Mr. Trujillo:

It as come to the attention of The New Mexico Environment Department (NMED) Department of Energy Oversight Bureau (DOE OB) that a number of drums have been stored at LANL's intermediate monitoring well LADP-3 for over two (2) years. The present drum location could possibly be damaged by cliff material if a rock-slide was to occur. We recommend relocating these drums to a more secure location.

Contact Michael Dale at 672-0449 if you have any questions concerning this matter.

Sincerely,

Stephen Yanicak

Steve Yanicak, DOE Oversight Bureau, LANL POC
New Mexico Environment Department
