**RE: Rescindment of Request for Supplemental Information  
and Notice of Deficiency for  
0-030(l & m) & 0-033(a)  
Los Alamos National Laboratory  
NM0890010515**

Dear Mr. Taylor and Mr. Browne:

The RCRA Permits Management Program (RPMP) of the New Mexico Environment Department's Hazardous and Radioactive Materials has inadvertently issued dual Requests for Supplemental Information (RSI) and an extraneous Notice of Deficiency (NOD) regarding the Voluntary Corrective Action (VCA) Completion Report for 0-030(l & m) & 0-033(a).

RPMP requests that DOE/LANL disregard the RSI dated May 22, 1998 and the NOD dated June 26, 1998 until RPMP has adequate opportunity to evaluate the comments and the error in process which occurred. At this time, DOE/LANL is **not** required to respond to the comments in either of these two documents within the timeframes stated in their transmittal letters.

RPMP will provide DOE/LANL with guidance on how to proceed in addressing the comments for this VCA Completion Report at the Environmental Restoration (ER) Monthly Meeting currently scheduled for August 10, 1998.

To ensure that this issue is resolved, RPMP requests that DOE/LANL place it on the August ER Monthly Meeting agenda.

Should you have any questions regarding this matter, please contact me or Mr. John Kieling, RPMP's LANL Facility Manager, at (505) 827-1558.

Sincerely,

Robert S. ("Stu") Dinwiddie, PhD, Manager  
RCRA Permits Management Program  
Hazardous and Radioactive Materials Bureau
