SUBJECT: Telephone Conversation with Brenda Edeskuty, ESH-18

Personnel: Richard Koch
Time: 06:00 pm

Work Description:

A list of NPDES outfalls in the Pajarito Canyon watershed was obtained from Ms. Marsha Jones of FIMAD. This list included a short description of each outfall and the easting, northing, and elevations of the outfalls.

Because many NPDES outfalls have recently been redirected to the sanitary waste facility at TA-46, the NPDES information was updated with recent information from TA-18 personnel.

A telephone conversation was held with Ms. Brenda Edeskuty, ESH-18 NPDES Coordinator, (665-0789). for the purpose of obtaining updated information relating to NPDES permitted outfalls in the Pajarito Canyon watershed.

The information obtained from Ms. Edeskuty for each NPDES outfall was entered into an Excel spreadsheet for inclusion in Chapter 2 of the Pajarito Canyon work plan, which is currently in preparation. The spreadsheet is attached for reference.
