Santa Fe, NM 87502

**SUBJECT: GROUNDWATER INVESTIGATIONS FOCUS AREA DRILLING
ACTIVITIES AT R-9(i)**

Dear Mr. Kieling:

The Groundwater Investigations Focus Area will begin drilling of the borehole for the installation of an intermediate groundwater characterization well, R-9(i), in Los Alamos Canyon. Drilling is scheduled to begin on or about February 18, 2000 through approximately March 17, 2000. Drilling will be completed to a depth of approximately 325 feet and a well with two screens will be installed in the upper perched zones. This well is being completed as part of the Laboratory's Hydrogeologic Work Plan.

No samples are planned to be collected during well drilling. If you have any questions or concerns please feel free to give me a call at (505) 667-0819.

Sincerely,

A handwritten signature in black ink, appearing to read "David McInroy".
