SUBJECT: NOTIFICATION OF PIEZOMETER INSTALLATION IN LOS ALAMOS CANYON

Dear Mr. Young:

The Canyons Focus Area is planning to install 3 piezometers on or about March 22, 2001 through March 30, 2001. These piezometers will be installed in the area between the confluence of DP Canyon and observation well LAO-6 in Los Alamos Canyon. Borehole depths will be approximately 15-40 feet for piezometer installation. After piezometers installation is completed, automated pressure transducers will be installed in each piezometer to measure and record water levels and permit quantification of vertical gradients. No samples will be collected as part of this field activity. This work is being performed as part of the Task/Site Work Plan for Operable Unit 1049, Los Alamos and Pueblo Canyon.

If you have any questions please call me at (505) 667-0819 or Danny Katzman at (505) 667-0599.

Sincerely,

A handwritten signature in cursive that reads "Dave".
