SUBJECT: SAMPLING NOTIFICATION

Dear Mr. Young:

The Los Alamos National Laboratory Environmental Restoration Project is planning to sample surface water and alluvial groundwater in Los Alamos and Pueblo Canyons starting the week of 18 June 01. This sampling is intended to satisfy the requirements of the second of four rounds of sampling in those canyons. The timing of this sampling round is based on the goal of characterizing water quality associated with low water levels that exist following the spring runoff and prior to the summer monsoon season.

Samples will be collected as shown in the table below.
