SUBJECT: SAMPLING NOTIFICATION

Dear Mr. Young:

The Los Alamos National Laboratory Environmental Restoration Project is planning to sample surface water and alluvial groundwater in Los Alamos and Pueblo Canyons starting the week of 22 October 01. This sampling is intended to satisfy the requirements of the third of four rounds of sampling in those canyons. The timing of this sampling round is based on the goal of characterizing water quality associated with declining water levels that exist following the summer monsoon season.

Samples will be collected as shown in the table below.
