Subject: Submittal Date for Supplementary Submittals for LAPCIR

Hi Darlene- Per your request, a proposed date for the supplementary submittals referred to in the LAPCIR NOD Response is December 15, 2005. That date will allow for completion of several key rate-limiting steps including the sampling notification, collection of additional samples for dioxin/furan analysis, analytical turnaround time, data validation, revision of COPC lists and UCLs, and updating the risk assessment.

Let me know if you have any additional questions.

Thanks.

- Danny
