Subject: 15-day notification - Phase 1 sediment sampling in North Canyons

This email is a 15-day notification of the initiation of the Phase 1 sediment sampling activities in the North Canyons (Barrancas, Bayo, Guaje, and Rendija Canyons) beginning on or after August 3, 2006.

The planned sampling reaches are presented on Figure A-1 in the Work Plan for the North Canyons (LA-UR-01-1316), and analyte suites are presented in Tables 7.2-2, 7.2-3, and 7.2-4 (pp. 7-15, 7-16, and 7-17). Samples will be collected following geomorphic mapping and associated geomorphic characterization in each reach, as presented in the Work Plan for the North Canyons. Field work will continue until all Phase 1 samples have been collected, which will probably occur sometime during late summer or early fall 2006.

Please feel free to contact me at 7-6333 if you have any questions.
- Danny
