Subject: A few photos... for C-00-041
Attachments: lens of asphalt.JPG; near confluence_asphalt3.JPG

LANL TR-0

I don't know if you have a file size-limit for email, so I will just attach these two for now. There are more, if you want them, and of course a site visit is always better. It is obvious from the photos that we have had some recent erosion, and things look a lot different at C-00-041.

Let me know if the Thursday at 10:30 call will work for you.

Thanks,
Becky
