Re: Submittal of Western Waste Line Sampling Plan and
No Further Action proposals for OU 1078
Los Alamos National Laboratory, NM0890010515

Dear Mr. Vozella:

The Environmental Protection Agency (EPA) has reviewed your letter dated October 8, 1993 which transmitted the work plans for the D Building, and Hillside 138 and 140. This same letter indicates that the remaining sampling plan for the Western Waste Line and the No further Action proposals for 24 Solid Waste Management Units (SWMUs) will be submitted later. Due to the length of time that it has taken Los Alamos National Laboratory (LANL) to submit these rewrites (6 months), EPA feels that it is appropriate to set a deadline for the submittal of the outstanding information. Therefore, the above mentioned outstanding material is due to EPA on November 5, 1993.

Should you have any questions, please contact Barbara Driscoll at (214) 655-7441.

Sincerely,

William K. Honker, P.E.
Chief
RCRA Permits Branch (6H-P)
