Area of Concern Near Technical Area 2

This memorandum is a response to the Environmental Restoration (ER) Project Communication Tracker number C027.

In a letter dated October 31, 1995, Barbara Driscoll requested that a preliminary investigation be conducted on an area of concern near Technical Area 2. Team members from Field Unit 4 performed the site investigation and documented their activities on the enclosed site report, as required by the ER Project administrative procedure LANL-ER-AP-04.1. In accordance with that administrative procedure, I have completed Part I of the report. Please forward the report to the potential release site report coordinator to complete Parts II and III.

If you have any questions please call me at 667-4308 or Deba Daymon of my staff at 662-1327.

LOS ALAMOS NATIONAL LABORATORY
ENVIRONMENTAL RESTORATION SITE REPORT
(This completed form may be used as an attachment to DOE/EPA Notification Letter)

(FPL to complete Part I)

PART I. PRS OR NEWLY DISCOVERED RELEASE

Reported by Barbara Driscoll Organization US EPA Phone: _____ Date/Time Oct. 16 - 20
Reg. 6

TA- 2 Field Unit 4 Other _____ (attach site-specific map)

Description (e.g., PRS identification, site type, discoloration, vapors, odors, action taken, other). Attach supporting information (e.g., historical records [what kind of activities were conducted at the site?], photographs, analysis).

The area of concern is a pile of metal nuggets on the east side of TA-2 and near SWMU 02-009. The area is about 1 ft² on top of a mound of soil. The area around the pile of nuggets looks like a disposal site.

Information on SWMU 02-009 is located in the OU 1098 RFI Workplan, June 1993.

- A. In SWMU Report? Yes _____ No X Don't know _____
PRS database? Yes _____ No X Don't know _____
- B. Intersects with private/non-DOE (Forest Service, County) property? Yes _____ No X Don't know _____
- C. Area formerly/currently used for chemical storage? Yes _____ No _____ Don't know X
If yes, chemical(s) stored: _____
- D. Was there a routine or systematic release? Yes _____ No _____ Don't know X
One-time release? Yes _____ No _____ Don't know X
- E. Was the PRS Report Coordinator contacted by telephone about a release within 24 hours?
Yes _____ If yes, date, time, contact name _____ No X Don't know _____
- F. Known solid wastes at site? Yes _____ No _____ Don't know X
If yes, waste types: (circle one or more) hazardous radioactive HE low-level mixed PCB sanitary
petroleum product (name) _____ other _____
