**RE: APPROVAL
REQUEST FOR EXTENSION TO COMPLETE
REGIONAL AQUIFER WELL R-61r
LOS ALAMOS NATIONAL LABORATORY
EPA ID#NM0890010515
HWB-LANL-MISC-GW**

Dear Messrs. Hintze and Brandt:

The New Mexico Environment Department (NMED) is in receipt of the United States Department of Energy and the Los Alamos National Security, L.L.C.'s (collectively, the Permittees) document entitled *Request for Extension to Complete Regional Aquifer Well R-61r* (Request), dated April 20, 2016 and referenced by ADESH-16-055.

The Permittees request a twenty-one-month extension to complete the regional aquifer well R-61r, which will replace existing well R-61. The Permittees state in the Request that the extension will allow them to collect and evaluate monitoring data from recently installed and soon-to-be-installed monitoring points that consist of piezometers, chromium extraction wells, and injection wells. These data may affect the final location of R-61r. In addition, the Permittees state that the installation of R-61r is not prioritized within the work scope for the fiscal years 2016 and 2017 under the 2015 LANL Legacy Cleanup Bridge Contract.

Messrs. Hintze and Brandt
May 3, 2016

NMED hereby grants the requested extension. The Permittees must complete well R-61r no later than **March 30, 2018**, as requested.

Should you have any questions, please contact Jerzy Kulis of my staff at (505) 476-6039.

Sincerely,

A handwritten signature in black ink, appearing to read "John E. Kieling". The signature is written in a cursive style with a large initial "J".
