Dear Messrs. Goodrum and Torres:

The New Mexico Environment Department (NMED) has received the United States Department of Energy (DOE) and its field offices, the National Nuclear Security Administration Los Alamos Field Office (NA-LA) and the DOE - Environmental Management Los Alamos Field Office (EM-LA), along with Los Alamos National Security, LLC (LANS), and Newport News Nuclear BWXT-Los Alamos, LLC (N3B) (collectively, the Permittees) *Demolition Notification for Quarter Ending September 30, 2018 for Los Alamos National Laboratory*, dated and received June 28, 2018, and referenced by EPC-DO-18-224, LA-UR-18-25175.

As stated by the Permittees, investigations are not complete at several Solid Waste Management Units (SWMUs) and Areas of Concern (AOCs) located within 50 feet of the buildings proposed for demolition. The Permittees state that they will ensure that the sampling locations and depths proposed in the approved work plans are not affected by these activities. In the case of adverse impacts to the SWMUs/AOCs where investigations are not complete, the Permittees must document all demolition activities that affect any SWMUs or AOCs in detail so that any impacts
