Re: Closure Plans

Dear Mr. Valencia:

The EID received no comments in opposition to the proposed closure plans for TA-40-2, TA 22-24 and TA 3-102 as a result of our public notice number 14, dated August 16, 1987. The only comments received were in DOE letter of September 14, 1987 which addressed only the wording of the public notice. Therefore, the closure plans for these three units is hereby approved with an effective date of November 30, 1987. You should proceed to implement the closure activities in accordance with the plans and the schedules therein. Interim status for these units will be terminated upon your certification of closure completion in accordance with the approved plans.

If you have any questions please write or call Mr. C. Kelley Crossman on my staff.

Sincerely,
