Mr. Jim Piatt, Bureau Chief
 Surface Water Quality Bureau
 New Mexico Environment Division
 1190 St. Francis Drive
 P. O. Box 26110
 Santa Fe, NM 87502

Dear Mr. Piatt:

Enclosed please find a revised Sampling and Remediation Plan (Plan) for Solid Waste Management Unit (SWMU) 3-010. The Plan was revised to reflect comments from your Bureau, transmitted in letters dated November 19, 1992, and January 21, 1993. It also incorporates comments received from the Environmental Protection Agency (EPA), Region 6. The field activities for this project are scheduled to start in early spring after the snow is melted from the site. Prior to the start of this voluntary corrective action, the Department of Energy is requesting that your office and Barbara Driscoll of the EPA review and approve of this plan in writing. Because this area is a SWMU, Module VIII of Los Alamos National Laboratory's Resource Conservation and Recovery Act Permit requires that EPA approve of the Plan prior to any final remedy of the SWMU taking place.

Should you have any questions, please contact Steve Slaten of my staff at 665-5050.

Sincerely,

Joseph C. Vozella
 Joseph C. Vozella, Acting Chief
