RE: LANL RFI WORK PLAN FOR OU 1114

The Technical Compliance Program of the Hazardous and Radioactive Materials Bureau (HRMB) has received the attached AIP review of the RFI Work Plan for OU 1114.

Based on this, the HRMB concurs with No Further Action (NFA) or Deferred Action (DA) as specified in the AIP review. Note that EPA approval is required for final NFA or DA determination.

Also, if new information becomes available for any site which NFA determination has been made, then LANL will be required to investigate these areas.

Sincerely,

Steve Alexander, Program Manager
Technical Compliance
