Mr. William Honker, Chief
RCRA Permits Branch
U. S. Environmental Protection Agency
Region 6
1445 Ross Ave., Suite 1200
Dallas, Texas 75202-2733

OU - 1114

Dear Mr. Honker:

Enclosed is the sampling and analysis plan for PRSs 3-038(a,b) and the deferred action recommendation for PRSs 3-026(a) and 3-037. This additional documentation for Operable Unit (OU) 1114's Resource Conservation and Recovery Act Facility Investigation Work Plan was drafted in response to the U. S. Environmental Protection Agency's (EPA), Region 6, Notice Of Deficiency (NOD) dated October 29, 1993, and due March 15, 1994.

A proposed deferred action for PRSs 3-037 has been supplied in place of a sampling plan because of information retrieved from historical references within the last four months. At the time the NOD was delivered, the OU 1114 technical team had learned that there had been a possible release from Solid Waste Management Unit 3-037 in 1989 and thus believed a sampling plan would be appropriate. However, after further investigations and discussions with our geologist, risk assessment specialist, and various other team members, a decision to defer action, pending EPA approval, was mutually agreed upon. Supporting information is presented in the enclosed document.

Should you have any questions, please feel free to contact Ted Taylor of my staff at (505) 665-7203.

Sincerely,

Joseph C. Vozella, Chief
Environment, Safety and Health
Branch

The attached documents, "Sampling and Analysis Plan for the SWMU 3-038(a,b) Industrial Wasteline Aggregate" and "Deferred Action Justification for the Inactive/Decommissioned Waste Tanks Aggregate" are true and accurate to the best of our knowledge. The document has been through internal and external formal reviews, including reviews by the Department of Energy, to ensure accuracy and in accordance with the Los Alamos National Laboratory (LANL) Environmental Restoration (ER) Program quality assurance procedure. The formal review comments and the resolutions to these comments are part of the public record and are available in the LANL ER Records Processing Facility. The document is being submitted to the Environmental Protection Agency as part of the requirements under the Hazardous and Solid Waste Amendments Operating Permit.
