Mr. Ted Taylor, Program Manager
U.S. Department of Energy
Los Alamos Area Office, MS A316
Los Alamos, NM 87544

Dear Mr. Taylor:

We are planning to resume sampling at the "mercury site," Operable Unit 1114, Potential Release Site 3-010(a) on or about September 6, 1994, through September 23, 1994. Activities will include a soil vapor survey of fill soils, auger drilling, and surface water sampling. Attached is a sampling summary for the site.

If you have any questions or concerns, please feel free to give me a call.

Sincerely,

David J. McInroy
Environmental Restoration Project
