SUBJECT: RESPONSE TO NOD FOR OU 1114

Dear Ms. Roberts:

Enclosed is the Los Alamos National Laboratory's response to the Environmental Protection Agency's Notice of Deficiency (NOD) concerning Operable Unit 1114 Resource Conservation and Recovery Act (RCRA) Facility Investigation Work Plan, Addendum 1. The NOD was received at the Los Alamos Area Office on November 11, 1995. The enclosed response was sent February 8, 1996. The Laboratory recently realized that you were inadvertently left off the distribution list. To rectify the situation, the Laboratory has enclosed the NOD response with Attachments 1-11. The response repeats each comment from the NOD for convenience in reviewing. Please note Deficiency #41 and the subsequent response pertains to potential release sites containing polychlorinated biphenyls (PCBs) that were cleaned up under Toxic Substances Control Act regulations at the Laboratory. The Laboratory is awaiting your concurrence for these sites, documenting that they were appropriately cleaned up, thus enabling the Laboratory to remove them from the Hazardous and Solid Waste Amendments Module of the RCRA permit.

In addition, for your records, we are enclosing other documents pertinent to Solid Waste Management Unit 3-056(c), a PCB site at the Laboratory, as Attachment A.

Please contact Garry Allen at (505) 667-3394 or Bonnie Koch at (505) 665-7202 if you have any questions about this response to the NOD.

Sincerely,

Jorg Jansen, Program Manager
LANL/ER Project

Sincerely,

Theodore J. Taylor, Program Manager
DOE/LAO

JJ/TT/bp

- Enclosures: (1) NOD Response with Attachments 1-11
(2) Attachment A - Collection of Documents Pertinent to SWMU 3-056(c)
June 1995 - November 1996
