RE: 1994-95 storm- and surface-water data specific to the Pajarito Canyon watershed

Dear Mr. Johansen:

The Department of Energy Oversight Bureau (DOE OB) previously submitted the enclosed data as part of the 11-20-96 data release "Submittal of sample data from 1994 and 1995 Storm-water and Surface-water sampling". This current submittal contains data specific to the Pajarito Canyon Watershed. These data have been carefully checked and repackaged for specific application to the RFI Work Plan for Pajarito Canyon that is currently in-progress. In the future, the DOE OB will make available any of its past data specific to other watersheds as requested by the LANL ER Project.

Please contact Michael Dale at 672-0449 or Alice Mayer at 672-0447 if you have any questions concerning these data.

Sincerely,

Steve Yanicak, LANL POC
Department of Energy Oversight Bureau
