SUBJECT: EXTENSION REQUEST FOR RESPONSE TO MORTANDAD CANYON RSI

Dear Mr. Garcia:

The Los Alamos National Laboratory Environmental Restoration (ER) Project is requesting a 15-day extension to respond to the Request for Supplemental Information (RSI) for Resource Conservation and Recovery Act Facility Investigation Work Plan for Mortandad Canyon. The RSI was received at the ER Project Office on January 13, 1999. This extension request is the result of:

- additional time required to co-ordinate with other Laboratory programs involved with this response;
- key personnel were committed to the planning, management, collection and synthesis of data for the R-25 drilling effort during the original time period of this response; and
- a key hydrologist contributing to the response was suddenly taken ill during the original time period of this response.

If you have any questions, please call Dave McInroy at (505) 667-0819 or Joe Mose at (505) 667-5808.

Sincerely,

Julie A. Canepa, Program Manager
