Dear Mr. Bearzi:

I attach a corrected copy of my letter to you dated November 5, 1999.

The previous version contained a typographical error in the second sentence of the second paragraph, substituting "our" for "one." The sentence should read, "One interpretation is that" etc.

Please substitute the attached letter and disregard the other one.

Sincerely,

Thomas C. Gunderson
Special Assistant of the Environment
Office of the Laboratory Director
