SUBJECT: CERTIFICATION ASSOCIATED WITH THE NOTICE OF SELF IMPLEMENTING ON-SITE CLEANUP AND DISPOSAL OF POLYCHLORINATED BIPHENYL (PCB) REMEDIATION WASTE POTENTIAL RELEASE SITE (PRS) 3-056(C) AT LOS ALAMOS NATIONAL LABORATORY (LANL)

Dear Ms Roberts:

Enclosed is the signed certification associated with the notice of self-
 implementing on-site cleanup and disposal of PCB remediation waste at PRS 3-056(c)
 at LANL. The notice was initially submitted to your office under a cover letter dated
 July 5, 2000 and referenced by ER2000-0311; however a signed certification was
 inadvertently omitted from the notice. The signed certification is also being provided to
 the New Mexico Environment Department Hazardous and Radioactive Materials Bureau
 and the Los Alamos County at this time.

If you have any questions regarding this certification or the originally submitted
 notice, please call Dave McInroy at (505) 667-0819 or Joe Mose at (505) 667-5808.

Sincerely,

Julie A. Canepa, Program Manager
 Los Alamos National Laboratory
 Environmental Restoration

Sincerely,

Theodore J. Taylor, Program Manager

OFFICE OF THE CHIEF INFORMATION OFFICER

CERTIFICATION

I certify under penalty of law that the information presented within this notice (including the attachments), was prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violation.

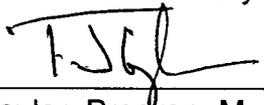

Additionally, the sampling plans, sample collection procedures, sample preparation procedures, extraction procedures, and instruments/chemical analysis procedures used to assess or characterize the PCB contamination at potential release site (PRS) 3-056(c) are on file for Environmental Protection Agency (EPA) inspection. These documents and procedures are available for inspection at Los Alamos National Laboratory's (LANL's) Environmental Restoration Project Records Processing Facility, LANL's Hazardous and Solid Waste Group (Environment, Safety, and Health Division, Group 19, or ESH-19) and at the Department of Energy Los Alamos Area Office (DOE LAAO).
