SUBJECT: SAMPLING NOTIFICATION

Dear Mr. Young:

The Los Alamos National Laboratory Environmental Restoration Project is planning to *continue to collect samples as part of the Voluntary Corrective Action (VCA) activities at Potential Release Site 3-056(c), on or April 2, 2001 through April 30, 2001.* VCA activities are ongoing, and have involved the removal of polychlorinated biphenyl (PCB) remediation waste at the site. Samples collected during excavation will be analyzed for PCBs using EnSys test kits; the test kits will be used on a daily basis to drive excavation activities. Post verification samples will be collected to confirm the cleanup activities.

Samples will be collected as shown in the table below.
