RELEASE / DISCHARGE NOTIFICATION

Calendar Year

LOS ALAMOS NATIONAL LABORATORY

Permit Number: .

2004

NPDES or Operational Spill/Release <input type="checkbox"/>	} Indicate with "X" in appropriate box.	Release ID Number:
ER Spill/Release <input type="checkbox"/>		132
Other Spill/Release <input checked="" type="checkbox"/>		

Responsible Facility/User Group: FWO-DF

Contact Person: Kenneth Schindwein Pager #: 104-7648

Phone #: 665-2272 Cell Phone #: 699-0576

Release/Discharge Location: The oil release occurred on the west side of TA-3-38. The majority of the product was spilled in an estimated 15-ft x 15 ft area. There were several additional areas where the product was released, all within 50 to 75-feet from the main spill area. An estimated 0.5 gallons of oil was released to a nearby storm drain that flows to upper Sandia Canyon.

TA: 3

Building: 38

If the release/discharge is associated with a NPDES Outfall, Potential Release Site (PRS) or Solid Waste Management Unit (SWMU), indicate the site/unit number and its relationship to the release/discharge:

NPDES Outfall: PRS: SWMU: PRS/SWMU Number: N/A

Indicate with "X" in appropriate box(es).

Relationship of the Discharge to a SWMU or PRS:

None.

Discharge Occurred: TBD	Discharge Discovered: 4/9/2004 10:00 a.m.	Discharge Stopped: 4/9/2004 10:00 a.m.
Date & Time	Date & Time	Date & Time
Cleanup Started: 4/9/2004 10:00 a.m.	Cleanup Completed: 4/9/2004 2:00 p.m.	
Date & Time	Date & Time	

Material(s) Released / Discharged:

The Laboratory has sampled the oil to determined type and content. The material appears to be lubricating oil or hydraulic fluid.

Release/Discharge Mitigation Method:

Laboratory personnel used absorbents (Oil Sponge) to remove oil released to the asphalt. Water and oil remaining in the storm drain was pumped into a 55-gallon drum. All waste will be managed and disposed of in accordance with all applicable regulatory requirements.

Weather Conditions:

Cloudy and cool.

Duration of Release/ Discharge, in HOURS: TBD	Est. Volume Released/ Discharged, in GAL. 2.5	Est. Volume Recovered, in GAL. 2
-----------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------

Corrective Actions Taken (ie, type of BMPs, etc):

Oil absorbent booms were placed around the storm drain near the spill area to capture any residual contamination that remained after clean-up.

Nearest Watercourse (Canyon Name) Sandia Canyon

Release Number 132...N/A...page 2 of 2.

If the release/discharge reached a watercourse, describe the estimated surface area affected, presence of release/discharge now in the watercourse, and the media the release/discharge was detected in:

Approximately 2-gallons of oil was released to the asphalt and approximately 0.5 gallons of oil was released to a nearby storm drain during the release. Laboratory personnel assessed the condition of the storm water where it daylight near TA-3-207. The storm water did not appear to have a sheen on the surface.

Depth to Groundwater, in FT, if known: -1,300

Distance to Nearest Drinking Water Well, in FT, if known: ~15,900 Well ID# PM-5

24-HOUR RELEASE/DISCHARGE NOTIFICATIONS

Table with 5 columns: Agency, Contact Person, Phone, Fax, Date & Time (or Comment). Rows include EPA, NMED/SWQB, NMED/GWQB, NMED/HRMB, NMED/DOE-OB, RRES-WQH, DOE, and OTHER.

Comments: Mark Haagenstad (RRES-WQH) left a message on the NMED Non-Emergency 24-Hour Spill Report Notification Line on 4/9/2004 at 2:00 p.m.. Bret Lucas (NMED-SWQB) and Curt Frischkorn (NMED-GWPP) were left verbal messages on 4/9/2004 at 2:25 p.m. and 2:30 p.m. respectively.

Form Completed By: Mark Haagenstad

7-DAY RELEASE/DISCHARGE ACTIONS

7 Day Notice [checked] 7 Day Notice Date: 4/16/2004 7 Day Notice By: Mark Haagenstad

Mark "X" when done.

Comments: The Laboratory is in the process of determining and verifying the time of the release, the type of petroleum product released, and the source of the release.

15-DAY RELEASE/DISCHARGE ACTIONS

15 day Follow-up Due: 4/23/2004 15-day Follow-Up By: Mark Haagenstad

Comments:
