Building 1  
Santa Fe, NM 87505-6303

**SUBJECT: FIELD NOTIFICATION**

Dear Mr. Bearzi:

The Los Alamos National Laboratory (LANL) Environmental Stewardship-  
Environmental Remediation and Surveillance (ERS) Program is planning to conduct  
excavation and confirmation sampling associated with the Accelerated Corrective Action  
(ACA) at Solid Waste Management Units (SWMUs) 61-002 and 03-029 and Area of Concern  
03-001(i), Technical Areas 61 and 3, respectively. The excavation and sampling is scheduled  
to begin on or about June 23, 2005.

The ACA work plan for these sites submitted December 3, 2004 (LA-UR-04-07879) will  
be used to guide the excavation and sampling of soils potentially contaminated by former  
LANL operations at the sites. Confirmation samples will be collected following excavation as  
summarized in the attached table.

If you have any questions regarding these field activities, or if you wish to arrange a site  
visit, please contact Roy Bohn at (505) 665-5138.

Sincerely,

Gabriela Lopez Escobedo, Program Manager  
Environmental Remediation & Surveillance  
Los Alamos National Laboratory
