**Subject:** 15-day notification of field activities - Drilling in Sandia for Cr Interim Measures Work Plan

This email is a 15-day notification of the initiation of drilling field activities in Sandia Canyon associated with the Chromium Investigation under the interim measures work. All activities are consistent with the scope in the approved work plan. These drilling activities are expected to begin in early August, 2006. The schedule activities include the following:

- drilling of alluvial wells
- drilling of characterization coreholes and sampling of core

Sampling of alluvial groundwater will be conducted after completion of the wells, and sampling of existing archived core has begun in accordance with the work plan.

Please feel free to contact me at 7-6333 if you have any questions.

- Danny
