RE: 1998 surface-water quality data obtained from sampling in Cañada de Buey and Sandia Canyon

Dear Mr. Vozella:

The Department of Energy Oversight Bureau (DOE OB) collected surface water and storm water runoff samples in Cañada del Buey and Sandia Canyon during the summer of 1998, and are providing the data to you so that it may be incorporated into LANL's ER work plan for the referenced canyons. All remaining 1998 DOE OB water data is scheduled for release to DOE by August 1999. These data have been through our quality control (QC) assurance protocol and evaluated for accuracy. Any information associated with this data release or QC protocol will be submitted if requested by DOE.

Please call me (672-0448) or Michael Dale (672-0449) if you have any questions concerning this material.

Sincerely,
Stephen Yanicak
