Dear Mr. Bearzi:

Beginning October 18, 2010, Los Alamos National Laboratory is scheduled to begin execution of investigation activities in the Lower Mortandad/Cedro Canyons Aggregate Area. Sampling activities are expected to last approximately 1 month, from mid October to mid November 2010. The sampling results will be presented in the investigation report for this aggregate area, due to NMED on June 30, 2011.
