**Cc:** Shen, Hai; 'Lance.Woodworth@nnsa.doe.gov'; Ball, Theodore T  
**Subject:** RE: R-62 well design

Mark,

This e-mail serves as NMED approval for installation of regional aquifer well R-62 as proposed in the document attached to the original e-mail received by NMED on August 31, 2011 at 10:33 PM. This approval is based on the information available to NMED at the time of the approval. NMED understands that LANL will provide the results of preliminary water-quality sampling, any modifications to the proposed well design, and any additional information related to the installation of well R-61 as soon as such information becomes available. **LANL must notify NMED of well development and aquifer testing at R-62 at least three business days prior to commencing these activities.** LANL shall give notice of this installation to the New Mexico Office of the State Engineer as soon as possible.

Thanks,

Jerzy Kulis

**Subject:** Proposed R-62 well design

Jerzy,

Here is our proposed design for R-62. Let's talk in the morning if you have any comments.

Thanks,  
Mark Everett
