

OFFICE MEMORANDUM

TO : Jesse Aragon

DATE : November 3, 1971

VIA : J. B. Panowski *JBP*

FROM : W. C. Courtright

SUBJECT : DUMPING MATERIAL IN THE BURNING GROUND CANYON

SYMBOL : H-3

Reference : Group GMX-3 SOP 12.3.6 IV.B.2

1418  
77-06

Permission is requested to allow the Zia Company to dump about one truckload of noncombustible debris in the canyon north of Building TA-16-387. This material will be broken concrete and other noncombustible debris from the destruction and removal of an old explosives magazine at TA-6-4 (Group GMX-7).

This material does not visibly show any HE contamination. However, it is felt that it should not be deposited in an area open to the public.

No combustible material is to be included and arrangements to enter and leave the Burning Ground area will be made in advance by Group ENG-4 with H. L. Keller, Group GMX-3.
