Ms. Barbara Driscoll
RCRA Permits Branch
US Environmental Protection Agency
Region 6
1445 Ross Avenue
Suite 1200
Dallas, TX 75202-2733

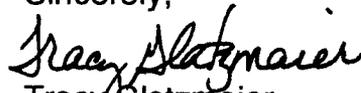

Dear Ms. Driscoll:

SUBJECT: NOTIFICATION OF POSSIBLE SAMPLING EVENT

Regarding the implementation of limited site characterization at Operable Unit (OU) 1111, please be advised we will be performing a radiological survey in Technical Area 6. Surface soil samples will be collected if any radiological contamination is detected. In addition, personnel from EG&G Idaho will perform a spatial resolution magnetic gradient survey at Material Disposal Area in preparation for later geophysics to locate pit boundaries. These activities are currently scheduled to begin the week of November 8 and continue through the week of November 15. This work is described in Section 5.1 of the Resource Conservation and Recovery Act Facility Investigation Work Plan for OU 1111.

If you have any questions or concerns, please call me at the number above.

Sincerely,

Tracy Glatzmaier
Programmatic Project Leader
