The U.S. Environmental Protection Agency (EPA) has reviewed the Response to the Notice of Deficiency for the Work Plan for Operable Unit 1111, and several concerns have been noted. Ms. Barbara Driscoll of EPA will be in Los Alamos next week and would like to meet to discuss these concerns. Due to her busy schedule, she would like to hold the meeting from 7:30 a.m. to 9:00 a.m. on Thursday, July 28, 1994. The meeting will be held in my office. Please ensure that cognizant members of your staff attend the meeting. By copy of this memorandum, I am inviting staff from the New Mexico Environment Department to attend the meeting.

Please call me at 665-7203 if you have questions. If your staff has questions, please ask them to call Mike Gilgosch at 667-5794.
