RE: R-17

Bob,

Both HWB and GWQB are ok with the land application of the drilling fluid and development water. Let us know if you have any questions.

john

Subject: R-17

Hi John,

Just following up on my August 28th email to you and Chris regarding land application of drilling and development water from R-17. It is my understanding that Chris is out of the office until October 2nd.

Did you have an opportunity to discuss R-17 before his departure?

Thanks,

Bob

TA-C [Groundwater, NOI approval for R-17 development/drill water]
