

TA-9

STEVE ALEXANDER'S COMMENTS
ON TA-9 RD&D HYDROTHERMAL PROCESSING UNIT

Page 4, paragraph 1
"Stored"?

Page 7, paragraph 2
If there is concern about the waste (pre-treatment) then will need additional info concerning M-1 characterization.

Page 8, paragraph 3
Any/all hazardous constituents entering the treatment system need to be analyzed for at end-of-treatment.

Page 9, paragraph 4
Again, if important, the sampling, testing, analysis and reporting of the waste input in needed.

Page 20, paragraph 3
"Spills"?

Attachment 1, page 5, paragraph 5
An annual evaluation will not necessarily provide adequate verification, by itself.
