**RE: EXTENSION REQUEST TO SUBMIT THE  
SUMMARY REPORT FO DIRECT CURRENT RESISTIVITY  
PROFILING IN CAÑON DE VALLE  
LOS ALAMOS NATIONAL LABORATORY  
EPA ID#NM0890018  
HWB-LANL-12-005**

Dear Messrs. Maggiore and Mousseau:

The New Mexico Environment Department (NMED) is in receipt of the United States Department of Energy (DOE) and Los Alamos National Security, L.L.C.'s (collectively, the Permittees) document entitled *Request for Extension to Submit the Summary Report for Direct Current Resistivity Profiling in Cañon de Valle* (Report) dated November 7, 2012 and referenced by EP2012-0232.

The Permittees request the extension to submit the Report due to their re-allocation of resources to the shipment of transuranic (TRU) waste stored at Technical Area (TA) 54 to the Waste Isolation Pilot Plant, located in Eddy County, New Mexico and due to uncertainties in funding levels for the current federal fiscal year (FFY13). The submittal date for the Report has been changed from April 3, 2013 to **September 30, 2013**, as requested.

35604

NMED is concerned over delays that affect the progress of corrective action; however, NMED understands the current uncertainties associated with the allocation of DOE resources to LANS to fund corrective action at the laboratory. The Permittees must notify NMED, within seven days of receipt of such information, should funds become available in the future that allow for the submittal of the Report prior to September 30, 2013. If funding becomes available, NMED may re-evaluate the deadline for completion of this project.

Please contact Dave Cobrain at (505) 476-6055 if you have questions.

Sincerely,

John E. Kieling  
Chief  
Hazardous Waste Bureau
