Re: Approval of the Voluntary Corrective Action (VCA) Completion
Report for PRS 12-001(a), Los Alamos National Laboratory
(LANL), EPA I.D. NM0890010515

Dear Mr. Garcia:

The Environmental Protection Agency (EPA) has reviewed LANL's Supplemental Information for the VCA Completion Report for PRS 12-001(a), dated December 1997, and has found the Report to be complete and approvable. EPA agrees with LANL's recommendation of No Further Action (NFA) for PRS 12-001(a). EPA bases its decision on the Document of Understanding NFA Criterion 4: No release to the environment has occurred, nor is likely to occur in the future.

Should you have any questions, please feel free to contact Mr. Rich Mayer at (214) 665-7442.

Sincerely,

David W. Neleigh
