**Subject:** LANL Interim Status OD Units

John,

LANL (Mark H. and Luciana V-H.) called to discuss the interim status OD/OB unit closure plans (TA-14-23, TA-39-57, TA-16-399), primarily to discuss a submittal date of mid-January. I said I wanted to talk to you about it, but that after the TWF-PMR, the OD/OB unit closures are our highest priority. Currently our review is scheduled to conclude 9-25-12. We'll need something in the record explaining how this schedule is tolled while LANL is supplementing their closure plans (perhaps an e-mail from us or them explaining).

Can we discuss this when you return?
